****** To continue, you will need to know the location of the file you are saving.

Locate and Rename

**Autoland Utility is case sensitive. Misspelling the file name will result in an error finding/launching File Manager

Update Autoland Utility directory

** Autoland Utility will only search this location for versions of File Manager

Overwrite Previous Version

Conclusion

- Launch Autoland Utility and click on File Manager to ensure you have completed the steps correctly.
- If File Manager does not launch
 - Ensure the download is located in the right directory
 - [C:\PSModule]
 - Ensure the filename is spelled exactly
 - [File_manager_USEN]
- If File Manager launches in a different language
 - Repeat the steps from the beginning.
 - Locate your preferred language on the list of the downloads.
- Please ensure the scanner is powered off and ONLY connected via USB

** If you are still experiencing issues: Take a screenshot of the error message and contact Autoland Scientech USA, Inc. at (512)336-5152
